## OmniTIK 5 ac

We are glad to introduce a significant upgrade to our popular OmniTik 5 GHz access points!
OmniTik 5 ac features five Gigabit Ethernet ports and support for 802.11ac. It's equipped with a powerful 720 MHz CPU, 128 MB RAM, high power $1,300 \mathrm{~mW} 802.11 \mathrm{a} / \mathrm{n} / \mathrm{ac}$ Dual Chain wireless (support for AC as well as backwards compatible with regular 802.11a/n CPE) and comes with a new design weatherproof outdoor enclosure, two integrated 7.5 dBi 5 GHz omni antennas, a power supply, a PoE injector and a mounting kit.

OmniTik 5 PoE ac includes all features listed above and additionally supports passive or standard 802.3at/af PoE input/ output ( $12 \mathrm{v}-57 \mathrm{v}$ ). Ethernet ports 2-5 can power other PoE capable devices with the same voltage as applied to the unit. Less power adapters and cables to worry about! It can power 48 V devices (like IP camera), if 48V input is used.
